DETAILED ACTION

This action is in response to the application filed 9 September 2003. Claims 1-5 are currently pending.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 101

Claims 4-5 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 4 is directed to a program per se, which is non-statutory under current US guidelines.

Claim 5 is directed to a recording medium but is dependent on a program and thus encompasses two statutory classes.

The examiner suggests that these rejections can be overcome by canceling claim 5, and amending the preamble of claim 4 to read "A recording medium storing a program for controlling a monitoring computer so as to: ..."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-5 are rejected under 35 U.S.C. 102(a) as being anticipated by Takaoka (Publication # JP2002051156A).

With regards to claims 1-5, Takaoka discloses a system in which a mobile telephone receives image data from a monitoring camera. The image data is displayed on the monitor of the mobile telephone. (See abstract)
